General marking principles

This information is provided to help you understand the general principles that must be applied when marking candidate responses in this assignment. These principles must be read in conjunction with the specific marking instructions, which identify the key features required in candidate responses.

a Marks for each candidate response must **always** be assigned in line with these general marking principles and the specific marking instructions for this assessment.

b Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

c If a candidate response does not seem to be covered by either the principles or specific marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.

d Candidates are awarded marks for specific skills and theory. Marks are awarded for demonstrating skills in using different IT applications and theory in the following areas:

Word-processing/desktop publishing — 30 marks (+/− 3 marks)
- entering and editing text
- layout and presentation of information
- key information included

Communication — 30 marks (+/− 3 marks)
- entering text
- key information included

Theory — 10 marks (+/− 3 marks)
- providing responses as part of an integrated IT task

Word-processing/desktop publishing

Two marks are available for inserting the logo throughout the assignment. Award 1 mark at the first correct use and the second mark at the last use, only if inserted correctly throughout.

Communication

Presentation

The logo must be the same size and in the same general position on each slide (for example in bottom left corner), but can be moved slightly to allow text or graphics to be seen.

Unless specified, accept the slide number in any position as long as it is consistent. New slides must be consistent.

Note: different backgrounds or design templates can change the font, size, capitalisation and footer position on original slides.

E-mail

E-mail messages must make sense and have:

- an appropriate subject heading with correct capitalisation, for example Security Presentation (not Task 3)
- an opening, for example Hi/Hello/First Name/Good Morning/Afternoon
- a close, for example Thanks/Regards or a closing sentence followed by the candidate name (accept first name only and accept a close with or without a full stop)
- consistent spacing — 2 returns from opening to start of the e-mail and 2 returns from close to the candidate name. There should be a minimum of 2 returns before the signature block

E-diary

- unless stated in the task, a week can be 5 or 7 days
- if any information is truncated on the e-diary printout, the candidate must provide supplementary printouts
- start and finish times of meetings and events must be clearly shown on printouts — if it is late in the evening, the whole day must be visible in the diary printout, unless a supplementary printout is provided
- it is not necessary to show location on printouts unless specifically requested — where it is included, mark keyboarding for accuracy
- accept initial or block capitals, or sentence case for events and appointments
- ignore extraneous events and meetings

Tasks

- tasks must be entered using the task manager, or equivalent
- mark tasks for keyboarding accuracy
- accept sentence case, initial or block capitals

Layouts

Marks are awarded for a wide variety of layouts used in word-processing/desktop publishing tasks. Do not penalise candidates for applying a layout to a document that is different to one supplied in the marking instructions. The overriding principle is that a document must be fit for purpose.

Keyboarding

Marks are awarded for every block of text that is accurately keyed-in (approximately every 20 words). Flags may be included, if appropriate, to identify where marks are awarded.

Do not accept alternative forms of spelling — only accept spelling as given in the task.

Treat each of the following as one error within a task:

- incorrect spacing after punctuation at the end of a sentence
- incorrect spacing for commas, colons, semi-colons, brackets and obliques
- confusion of hyphens and dashes
- recurring omission of the same punctuation mark

Date formats

Accept any standard format, for example:

6 July 2026	06/07/2026
6th July 2026/July 6th 2026	July 6, 2026
6/7/26	Monday, 6 July 2026
06 July 2026	6 July – 7 August 2026
Monday 6 July 2026 – Friday 7 August 2026	6th July – 7th August 2026
6 July 2026 – 7 August 2026	

Do not accept the 6th of July or American dates in number format. Do not accept 6 July 2026-7 August 2026, this should be a dash not a hyphen. Dates must include a number, month and year, unless specifically instructed otherwise.

There must be consistency of style within a task. If an e-file is provided, candidates must use the same style.

Time formats

Accept a variety of formats, for example:

1000 hours	10am
1000hrs	10.00 am
10:00 hours	10.00am
10.00 hrs	10:00 am
10 am	10:00am

Accept 2.30 pm and 4 pm within the one task. Do not accept **a.m. or p.m.** If there is a start and finish time, for example 6 pm – 9 pm or 6-9 pm or 10 am – 3.30 pm — there must be a dash after a letter and a hyphen between numbers.

There must be consistency of style within a task. If an e-file is provided, candidates must use the same style.

Text formatting

Accept any of the following:

Size	Right alignment
Bold	Bullet points
Underline	Justify
Italics	Border
Shading	Text within a shape
Centre	WordArt
Font change	

WordArt can also be accepted as a font style. However, if any of these are specifically requested in the task, they cannot also be used as a text format.

Graphics

Accept:

Clip art	WordArt
Photographs	Watermarks
Scanned drawings	Border

A graphic must not be clipped by the margin or cover any information on the page.

Where a function appears in both the graphics and text formatting lists, it can only be counted as one of them.

Capitalisation

Capital letters should be used at the start of sentences and for proper nouns. Treat inconsistent capitalisation as one error within a task.

Headings

Headings should be enhanced in some way, for example:

- block capitals with or without bold
- initial capitals and bold
- initial capitals and underscore
- increased size of font

A change of alignment on its own is not acceptable.

Conjunctions should not be capitalised in headings with initial capitals, for example Pictures from Dynamic Earth.

Contact details

- for e-mail accept: e-mail, E-mail, E-Mail, email, Email, E, suitable symbol, or on its own
- for web address accept: Web, Web Address, W, Website, suitable symbol or on its own
- for telephone number accept: Tel No, Telephone Number, T, Phone, suitable symbol or on its own (there must be no space in telephone numbers)

There must be consistency of style when using the above pieces of information and if any appear in a sentence, candidates must use sentence case.

Theory

All keyboarding errors should be ignored.

Tasks that ask candidates to 'outline'

Candidates must make a number of brief, relevant, factual points. The points do not need to be in any particular order.

Up to the mark allocation for this task:

- 1 mark should be given for each brief, relevant, accurate, point of knowledge

Tasks that ask candidates to 'describe'

Candidates must make a number of relevant factual points, which may be characteristics and/or features, as appropriate to the task asked. These points may relate to a concept, process or situation.

Up to the mark allocation for this task:

- 1 mark should be given for each relevant factual point
- 1 mark should be given for any further development of a relevant point, including exemplification when appropriate

Tasks that ask candidates to 'explain'

Candidates must make a number of points that relate cause and effect and/or make the relationships between things clear, for example by showing connections between a process/situation. These may include theoretical concepts. There is no need to prioritise the reasons.

Up to the mark allocation for this task:

- 1 mark should be given for each accurate relevant cause and effect
- 1 mark should be given for any further development of a relevant point, including exemplification when appropriate
- 2 marks should be given for a single response covering 2 points

General

If a task requires specific information to be inserted in a footer, the candidate's name and task number should always be below the footer information, or in the header. The only exception is on full-page presentation slides.

If candidates are asked to include a name, they must include the title, first name and surname, unless specifically instructed to use only certain information.

Candidates must action and then delete all comments on e-files.

Errors

Do not award (DNA) a maximum of 1 mark (1K) per word, for example:

- co - ordanation should be co-ordination

Printouts

There are clear printing instructions for each task.

Printouts of tasks must show all event details, without truncation and printouts of e-diary reminders must show the reminder time setting.
