General marking principles for National 5 Art and Design

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

(c) If a specific candidate response does not seem to be covered by either the principles or detailed Marking Instructions, and you are uncertain how to assess it, you must seek guidance from your Team Leader.

(d) It is possible that some candidates could have investigated artists and designers who are not known to the marker. In such cases, markers are expected to familiarise themselves with the artists'/designers' work before marking the response.

(e) Markers should consider the extent to which the candidate's response demonstrates their knowledge and understanding of art and design practice.

(f) Marks should not be awarded for mere descriptive comment. At this level, candidates are expected to justify their answers. To gain marks, candidates must develop points made. For example,

'The artist has used a lot of red in the portrait' would not gain a mark as it is simply descriptive, but

'The artist has used a lot of red in the background of this portrait. This suggests to me that the subject is angry as we tend to associate red with this emotion', would gain a mark, as this answer shows some understanding of the expressive potential and use of specific colour and a more analytical response.

(g) No marks should be awarded for simply repeating information from the legend. Where candidates develop and use this information to justify their opinion or qualify their answer, credit can be given.

(h) Candidates must answer all aspects of the question to gain full marks. 8 marks are available for responding to aspects relating to expressive art or design. If only two of the three aspects are covered, then 1 mark cannot be accessed and a maximum of 7 marks can be gained by the candidate. If only one aspect is covered, the candidate can gain a maximum of 6 marks for this part of the question. Likewise, the questions require candidate to give two justified opinions and candidates must make two valid and substantiated points relating to the question to gain both marks.

Overview

National 5 level candidates are required to demonstrate knowledge and understanding of key art and design issues, and knowledge and understanding of the work of at least two artists and two designers. The format of the questions reflects this emphasis. Each section has two equally demanding parts.

The questions are designed to test candidates' ability to respond critically to images of visual arts and design products and to form and substantiate judgements about identified aspects of art practice and design issues.

The questions require candidates to demonstrate their understanding of art and design issues in an extended response format.

Mandatory questions (Q1 and Q7)

In these questions, candidates are required to demonstrate knowledge and understanding of key art and design issues and knowledge and understanding of the work of two artists and two designers. This question assesses the candidates' ability to identify similarities and differences in artists'/designers' approaches with explicit reference to their use of visual/ design elements and to make comparisons between identified examples of their work.

In these questions, candidates are expected to provide substantiated reasons to support their personal opinions. One mark should be awarded for each relevant, justified point, which answers the question up to a maximum of 10 marks. Markers should follow the specific marking guidance for each aspect of these questions in the marking instructions table.

Candidates who discuss only one artist/designer in their answer have not fully answered the question and may only gain a maximum of 5 marks. Should this occur, answers should be marked according to the specific marking instructions for these questions.
Candidates are expected to demonstrate their knowledge and understanding with reference to specific artworks/designs.

In SECTION 1, Expressive Art Studies, question 1, candidates will respond to the question by comparing two works of art with a common stimulus/theme.

Candidates may select works which have common subject matter or are of the same genre. However, the candidate may have selected examples based on a thematic approach which is not immediately apparent and this is acceptable. There is no requirement for the candidate to explain their selection. Markers should apply the marks as per the marking instructions.

In Expressive Art Studies questions, where the term 'artist' is used it should be interpreted in its broadest sense, covering painting, printmaking, photography, sculpture, installation, animation, film and video. They may also refer to groups of artists rather than individuals (eg artists who work in pairs/groups such as the Boyle family), and this is acceptable.

In SECTION 2, Design Studies, question, candidates will respond to the question by referring to two specific examples of designers' work. They will be asked about visual aspects and functional design issues in relation to the works they have selected.
In the Design Studies questions, the term 'designer' should also be inclusive of any form of design. Occasionally candidates may refer to collections of designs (particularly in fashion/ textiles answers), and this is acceptable.

Candidates are directed to select works from the same design area. Markers should be aware that candidate may select disparate examples from a particular design area, for example a chair and a kettle in Product Design. This is acceptable. Markers should apply the marks as per the marking instructions.

Candidates may also refer to groups of designers rather than individuals (eg Alessi or Timorous Beasties), and this is acceptable.

Optional questions (Q2–6 and Q8–12)

These questions require candidates to give a personal response to one selected image from a choice of supplied images. They will demonstrate their understanding of specialist art and design vocabulary when commenting on key aspects of art and design practice and justifying their answers and opinions.

One mark should be awarded for each relevant, justified point, which answers the question up to a maximum of 10 marks. Markers should follow the specific marking guidance for each aspect of the questions provided in the table.

If a candidate answers more than one optional question in either section of the question paper, the answers should be marked and the response that gains the highest marks should be recorded.

In SECTION 1, Expressive Art Studies, they will comment on an unfamiliar image, demonstrating an understanding of important aspects of the artist's work.

In SECTION 2, Design Studies, they will comment on an unfamiliar image, demonstrating understanding of specific design issues.

Section 1 – Expressive Art Studies

Question			Max mark	General marking instructions	Specific marking instructions
1.			**10**	**All candidates** will answer this question. Candidates are expected to demonstrate their knowledge and understanding with reference to **two** specific artworks. The two selected examples of artwork should clearly contain similar subject matter or be based on the same theme, eg two portraits, two still life paintings with similar objects, two coastal landscapes, two works based on war, fantasy, dance, etc.	The maximum marks available for this question is **10 marks**. Candidates' responses can be credited in a number of ways. Candidates are asked to compare both artists' use of: • *colour* • *media handling and techniques* • *mood and atmosphere*. This will include a comparison of how the artist has used the selected elements. Candidates will also identify which of the two works they feel shows the most creative approach, and justify the reasons why.

Question			Max mark	General marking instructions	Specific marking instructions
				This question allows candidates to compare artists' approaches with explicit reference to specific elements. In the extended response, candidates will make direct comparisons between selected examples of artwork. They will also be asked to make a judgement on a specific issue. They will be required to give two reasons for the response. Candidates who discuss only one artist can only gain a **maximum of 5 marks**. Answers should be marked according to the specific marking instructions should this occur.	A **maximum of 8 marks** are available for comparing the **two** selected artworks. Appropriate answers here would include commenting on: • the colour • the media handling skills and the techniques the artists have used to produce the work and their effects • the mood and atmosphere created and how this has been achieved • **any other well justified comment relating to subject matter, media handling and techniques and mood and atmosphere** A **maximum of 2 marks** are available for identifying which of the artworks shows the most creative approach, giving **two** justified reasons. Marks should not be awarded for repeating earlier points, if these points have not been developed in any way. Where a candidate discusses only one artwork in their answer, marks should be awarded as follows: A **maximum of 3 marks** are available for discussing the artwork with reference to the artist's use of the specific elements. A **maximum of 2 marks** are available for explaining which of the work shows the most creative approach, giving reasons.

Question			Max mark	General marking instructions	Specific marking instructions
2.			**10**	Candidates are asked to choose and respond to **one** other question from this section of the paper. There is a **choice of five** different questions for personalisation and choice (Q2–6). Each of these questions asks candidates to: • comment on the artist's methods or approach to the subject and their use of specific elements • give their opinion on the work, justifying their opinions. Marks should not be awarded for mere descriptive comments or simply repeating information from the legend. To gain marks, candidates must develop points made. Any substantiated comments and valid, justified personal opinions should be rewarded. These opinions can be either positive or negative.	The maximum marks available for this question is **10 marks**. Candidates' responses can be credited in a number of ways up to **a maximum of 10 marks.** This question asks candidates to: • comment on the ways in which this artist has represented this scene referring to composition, colour and line • giving an opinion on the mood and atmosphere created giving **two** justified reasons. Marks can be awarded for relevant substantiated comments or points relating to the artist use of composition, colour and line. One mark should be awarded for each relevant point made up to the maximum of **8 marks in total**. A maximum of **2 marks** may be awarded for giving an opinion on the mood and atmosphere created, giving **two** justified reasons. One mark should be awarded for each relevant point made up to the maximum of **2 marks in total**. The table below outlines appropriate candidate comments which they could have developed in their answer.
