Marking Instructions

Please note that these marking instructions have not been standardised based on candidate responses. You may therefore need to agree within your centre how to consistently mark an item if a candidate response is not covered by the marking instructions.

General marking principles for National 5 Art and Design

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

(a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.

(b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.

(c) It is possible that some candidates could have investigated artists and designers who are not known to the marker. In such cases, markers are expected to research the artists/designers before marking the response.

(d) Markers should consider the extent to which the candidate's response demonstrates their knowledge and understanding of art and design practice.

(e) Marks should not be awarded for mere descriptive comment. At this level, candidates are expected to justify their answers. To gain marks, candidates must develop points made.

For example, *'The painting has bright colours'* would not gain a mark as it is simply descriptive, but

'The painting has bright colours and the use of warm vivid colours on the flowers makes them stand out as they contrast with the cool colours in the background', would gain a mark, as this answer shows an understanding of colour theory.

(f) No marks should be awarded for simply repeating information from the legend. Where candidates develop and use this information to justify their opinion or qualify their answer, credit can be given.

(g) To gain full marks, candidates must have responded to all aspects of the question. **8 marks** are available for responding to the prompts relating to expressive art or design issues.

- if the candidate responds to only two of the three prompts effectively, then **1 mark** cannot be accessed and **a maximum of 7 marks** can be gained by the candidate for this aspect of the question.
- if the candidate responds to only one of the three prompts effectively, the candidate can gain **a maximum of 6 marks** for this aspect of the question.

(h) The questions also require candidates to give an opinion with justified reasons which are worth **2 marks**. Candidates must make two valid and substantiated points relating to the question to gain both marks.

Overview

National 5 level candidates are required to demonstrate knowledge and understanding of key art and design issues, and knowledge and understanding of the work of at least two artists or two designers. The format of the questions reflects this emphasis. The paper is divided into Section 1: Expressive Art Studies and Section 2: Design Studies and each is equally demanding.

The questions are designed to test candidates' ability to respond critically to images of art and design works and to form and substantiate judgements about identified aspects of art practice and design issues.

The questions require candidates to demonstrate their understanding of art and design issues in an **extended response format**.

Mandatory questions (Q1 and Q7)

In these questions, candidates are required to demonstrate knowledge and understanding of key art and design issues and knowledge and understanding of the work of two artists or two designers. Candidates are expected to provide substantiated reasons to support their personal opinions.

The questions are divided into two parts.

Part (a)
This part of the question assesses the candidates' ability to comment on the art and design works with explicit reference to the use of visual art/design elements and to express justified opinions on the identified examples of the work.

1 mark should be awarded for each relevant, justified point, which responds to the question prompts up to **a maximum of 10 marks**.

Candidates are expected to demonstrate their knowledge and understanding with reference to specific artworks/designs.

Candidates who discuss only one artwork or design can only gain **a maximum of 6 marks**. Where this occurs, marks should be awarded as follows

- **a maximum of 4 marks** are available for discussing artwork with reference to one artist's use of the specific elements
- **a maximum of 2 marks** are available for giving an opinion on a specific aspect of the artist's or designer's work with **two** justified reasons.

Part (b)
This part of the question assesses the candidates' knowledge and understanding of the impact of social, cultural and other influences on the work of a selected artist and designer from part (a).

1 mark is awarded for each correct influence identified up to **a maximum of 2 marks**. **A maximum of 3 marks** are available for describing how the influences can be seen in any of the selected artists or designers work.

Examples of social and cultural influences may include

- living conditions, including economic conditions
- influence of family and community
- influence of other artists/designers
- influence of art/design movements
- exposure to different cultures
- physical environment/geography
- new and emerging technology
- politics
- gender
- religion/belief
- national/world events
- developments in other fields for example science, literature
- personal circumstances
- health and wellbeing.

In Section 1, Expressive Art Studies, question 1 part (a), candidates will respond by commenting on two works of art with a common stimulus/theme. They will be asked about specific issues in relation to the works they have selected.

In question 1 part (b), candidates will select one artist from part (a) and identify two influences on this artist. They will then describe how these influences can be seen in the artist's work. It is acceptable for candidates to refer to the artwork discussed in part (a) or the artist's work in general.

In Expressive Art Studies questions, where the term 'artwork' is used it should be interpreted in its broadest sense, covering painting, printmaking, photography, sculpture, installation, animation, film and video.

Candidates may also refer to groups of artists rather than individuals (for example artists who work in pairs/groups such as the Boyle family), and this is acceptable.

In Section 2, Design Studies, question 7 part (a), candidates will respond by referring to two specific examples of designers' work. They will be asked about visual aspects and functional design issues in relation to the works they have selected.

In question 7 part (b), candidates will select one designer from part (a) and identify two influences on this designer. They will then describe how these influences can be seen in any of the designer's work. It is acceptable for candidates to refer to the design discussed in part (a) or to the designer's work in general.

In the Design Studies questions, the term 'design' should also be inclusive of any form of design. Occasionally candidates may refer to collections of designs (particularly in fashion/textiles answers), and this is acceptable.

Candidates may also refer to groups of designers rather than individuals (for example Alessi or Timorous Beasties), and this is acceptable.

Optional questions (Q2–6 and Q8–12)

Candidates are asked to choose and respond to **one** other question from their chosen section of the paper.

In each section, there is a **choice of five** different questions for personalisation and choice**.** These questions require candidates to give a personal response to one selected image from the choice of supplied questions and images in each section. They will demonstrate their understanding of specialist art and design vocabulary when commenting on key aspects of art and design practice and justifying their answers and opinions.

In Section 1, Expressive Art Studies, they will comment on an unseen image, demonstrating an understanding of important aspects of the artist's work.

In Section 2, Design Studies, they will comment on an unseen image, demonstrating understanding of specific design issues.

Each of these questions asks candidates to

- comment on the artist's/designer's methods or approach and/or their use of specific elements in the artwork/design shown
- give their opinion on a specific aspect of the work, justifying their opinions.

1 mark should be awarded for each relevant, justified point, which answers the question up to **a maximum of 10 marks**. Markers should follow the specific marking guidance for each aspect of the questions provided in the table.

Marks should not be awarded for mere descriptive comments. To gain marks, candidates must develop or justify points made.

Substantiated comments and valid, justified personal opinions relating to the question should be rewarded. These opinions can be either positive or negative.

If a candidate answers more than one optional question in either section of the question paper, the answers should be marked and the response that gains the highest marks should be recorded.

<tr><td colspan="5">All candidates who have chosen Section 1 will answer this question.</td></tr>
<tr><td>1.</td><td>(a)</td><td></td><td>Candidates are expected to demonstrate their knowledge and understanding with reference to two specific artworks.

The two selected examples of artwork should clearly contain similar subject matter or be based on the same theme, for example, two portraits, two still life paintings with similar objects, two coastal landscapes, two works based on war, fantasy, dance, etc.

Candidates' responses can be credited in a number of ways.

Candidates are asked to comment on their two selected artworks referring to

• media handling and/or techniques
• use of shape and/or form
• mood and atmosphere.

Appropriate answers here would include comments on

• use of materials, processes and techniques the artists have used to produce the work and their effect
• each artist's use of shape and/or form and the effect on the work
• the mood and atmosphere of the work and how this has been achieved
• any other well justified comment relating to use of media handling and/or techniques, use of shape and/or form and mood and atmosphere.

Candidates may refer to a diverse range of artworks. The table below gives examples of points which would gain marks.

<table><tr><td>media handling and/or techniques

<tr><td></td><td>(b)</td><td></td><td>
Candidates' responses can be credited up to a maximum of 5 marks. This question asks candidates to select one artist from part (a).

Identify two influences on this artist and describe how these influences can be seen in any of their work.

Marks should be allocated as follows

One mark should be given for each specific correct influence identified, up to a maximum of 2 marks.

One mark should be given for each clear description of how the influences identified can be seen in any of the artist's work up to a maximum of 2 marks.

One additional mark should be given up to a maximum of 5 marks in total for

• a further developed point which gives additional detail on how one particular influence is seen in the artist's work

or

• a further point describing another way one particular influence is seen in the artist's work.

The table below gives examples

<tr><td>8.</td><td></td><td></td><td>Candidates' responses can be credited in a number of ways up to a maximum of 10 marks.

This question asks candidates to:
• comment on this poster design, referring to layout, lettering and colour
• give your opinion on the target audience for this poster, with two justified reasons.

Marks can be awarded for relevant substantiated comments or points relating to the layout, lettering and use of colour.

1 mark should be awarded for each relevant point made up to the maximum of 8 marks in total.

The table below gives examples of points which would gain marks.

<table><tr><td>Layout</td><td>• the layout of the poster has been split by white lines into three areas — one for authors/book titles, main lettering and the information at the bottom, and this makes the poster easier to understand
• the main information about the festival is placed at the bottom of the poster in a horizontal block of colour which makes it easy to read
• the authors' names and book titles are placed in coloured rectangles making them look the spines of books
• the authors' names are arranged in a vertical strip, which makes it look like a pile of books
• the letters of the main title are contained in squares of colour and arranged vertically give an unusual effect
• the layout of the lettering in the title is quite confusing but there are arrows to show the viewer which way to read the text in the title
• any other justified comments regarding layout.</td></tr></table></td><td>8</td></tr>

Question			Specific marking instructions		Max marks
			Lettering	• the title of the poster 'Kansas' has been designed using the shapes of open books for each letter and this links to the purpose of the poster • different sizes of fonts are used in this poster to draw attention to the importance of the information, with the most important being the biggest • The colour of the lettering contrasts with the background making it stand out • the lettering is framed by being placed in different blocks which makes it easier to read • the size of the font in the vertical strip on the side very small which affects the readability • the information in the block at the bottom of the poster is placed very close together but the different font sizes separates it out • **any other justified comments regarding lettering.**	
			Colour	• the use of white for the title 'KANSAS' stands out against the blocks of colour and makes the poster eye-catching • the use of thin white lines representing the pages of a book on each letter of the main title reminds me of optical illusions adding an unusual visual effect • although a range of colours have been used, they are repeated throughout and in sections and this makes the poster more unified • the main information is in different colours of fonts so makes the information stand out • warm and cold colours are used in different areas which creates visual impact • **any other justified comments regarding the colour.**

Marks can be awarded for relevant substantiated comments or points relating to the designer's use of form, fitness for purpose and target market. 1 mark should be awarded for each relevant point made up to the maximum of 8 marks in total.

The table below outlines appropriate points which candidates could have developed in their answer.

<table>
<tr><td>form</td><td>• the chair has an organic form as everything is curved with no sharp edges
• the circular form helps it the chair to rock backwards and forwards
• it is an unusual form for a chair as most chairs have four legs
• the chair has a large form which will take up a lot of space
• the form reminds me of an insect as it has long spindly legs
• any other justified comments regarding form.</td></tr>
<tr><td>fitness for purpose</td><td>• the chair has an unusual purpose and it provides light so it would be good for reading
• the chair is eco-friendly because it generates its own electricity by rocking
• the chair does not look very comfortable, there are no arm rests to ensure you don't fall out
• the chair looks impractical as you would need a lot of space to fit it into a room
• the chair might not be suitable for everybody as it is not adjustable
• any other justified comments regarding fitness for purpose.</td></tr>
