General Marking Principles for National 5 ESOL Listening

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

(c) The Marking Instructions indicate the essential idea that a candidate should provide for each answer.

(d) The answers for each question must come from the original listening text.

(e) Where there are multiple choice questions, award 0 marks where a candidate ticks all boxes.

(f) In addition, markers should use their professional judgement, subject knowledge and experience, and understanding to mark candidate responses.
