General marking principles for National 5 Spanish Reading

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must **always** be assigned in line with these general marking principles and the detailed marking instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

(c) Award a mark to each answer. Marks are not transferable between questions.

(d) For questions that ask candidates to '**state**' or '**give**', candidates must give a brief, accurate response/name.

Detailed marking instructions for each question — Reading

Question			Expected response(s)	Max mark	Unacceptable answers
